

### SEALING RINGS

UV-resistant made of EPDM - rubber acts as a valve system with recoil reduction through controlled pressure release

### OUTER SHELL

7075-T6 aerospace aluminium with special coating; genuine 40 µm with PTFE-coated surface for easy cleaning

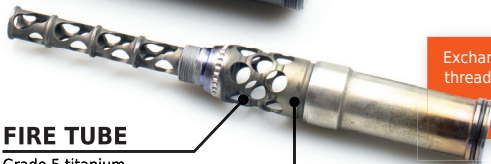

### SILENCER ELEMENT

V2A - corrosion-resistant stainless steel

### FIRE TUBE

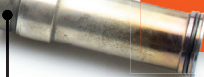

Grade 5 titanium completely corrosion resistant

Exchange of calibre and thread-specific fire tube unit possible at any time

### THREAD ADAPTER

Grade 5 titanium  
Concentricity guarantee < 0.01 mm

## ADVANTAGES

- ✓ Highest silencing performance
- ✓ Eccentricity
- ✓ Max. field of view (attachments)
- ✓ Max. reduction of the muzzle flip
- ✓ Recoil reduction > 30%
- ✓ Suitable for simulated firing ranges\*
- ✓ Thermal freely-vibrating titanium core
- ✓ Titanium / aluminium (hard-anodised, PTFE-coated surface)
- ✓ Maintenance-free (partially self-cleaning)
- ✓ Modular design (can be dismantled)
- ✓ Manufactured 100% climate neutral
- ✓ 10-year warranty on titanium core

\*To prevent overheating, only limited series of shots may be fired (only use factory ammunition cal. ≤ 6.5 mm: max. 15 shots; cal. ≤ .30 (7.62 mm): max. 25 shots; cal. ≤ .375 (9.3 mm): max. 15 shots). Before starting another series of shots, the silencer must cool down to hand temperature.

The following applies to all silencers: only available to holders of a firearms permit. Please enclose a copy of the firearms permit.

Made in Germany

# UNIQUE

Manufactured 100% climate neutral and made from the highest quality titanium and aluminium materials; this silencer offers a uniquely quiet experience for every hunter. With a recoil reduction of more than 30%, it stands out clearly compared with numerous other silencers.

This model can be completely dismantled and is partially self-cleaning. The eccentric design means that the hunter has no restrictions to the field of view in the sights.

**10-year warranty on the TITANIUM CORE.**

## CALIBRE

.264 / 6.5mm  
.30 / 7.62mm  
.323 / 8mm  
.375 / 9.5mm

## THREAD

1/2x20 UNF | 1/2x28 UNF | M13x1 | M14x1  
M15x1 | 5/8x24 UNF | M17x1 | M18x1

## TECHNICAL DATA

**Total length:**  
209 mm

**Diameter:**  
50 mm

**Barrel extension:**  
129 mm

**Silencing value:**  
-32 dB\*

**Max. barrel diameter:**  
21 mm

**Weight:**  
420 g

**UV and heat resistant rubber  
outer bearings**

\*Depending on the barrel length, ammunition and calibre.
